Special Tubing Requirement for Fragrances: Fragrance oils react with standard vinyl tubing so we recommend the use of Tygon-2275 tubing with all Ultraflex[®] Fragrance applications. Use CSI Ultraflex[®] Part Number: P20010001-050 for a 50 ft roll of the proper tubing.

Viscosity / Temperature Relationship: Temperature changes have very little effect on the viscosity of this product. Tip changes due to temperature changes should not be necessary.
