PRODUCT: Tank Fresh 720 Stock # UF720

Description: Product to help keep diluted products in dilution tanks clear and fresh. Usually only needed during hot weather when diluted products in tanks can develop clarity and clogging issues.

Color: Light Turquoise

Scent: Mild

Features	=	Benefits
Ultra Concentrated	=	Low cost per application
Free flowing liquid	=	Easy to meter

Application

Tank Fresh 720 can be drawn direct from the container or Ultraflex® reservoir and metered using an Ultraflex® Check Hub and metering tips. This product can be drawn through normal vinyl tubing.

This product is very versatile and can be metered in with high foaming detergents, conditioners, polishes, etc. It is generally not needed for Sealants and Drying Agents.

<u>Application</u>	<u>Strongest</u>	<u>Dilutions</u> <u>Weakest</u>	<u>Average</u>
Direct Draw	1:180	1:500	1:300
Metering Tip	Turquoise	Ultra Lime	Orange or Tan

Adjust for desired effect with the best economy.

Guidelines for Application

Water Quality: Do not apply with reclaimed water. No other special requirements.

Solution Temperatures: There are no special temperature requirements for this product. In most cases it will be mixed with cold water.

Other: For best results start with a clean tank. Product may be drawn through normal vinyl tubing.

Viscosity / Temperature Relationship: Temperature changes have very little effect on the viscosity of this product. Tip changes due to temperature changes should not be necessary.
