Benefits

Low cost per application

Easy to meter

Application

Pit Fresh 730 can be drawn direct from the container or Ultraflex® reservoir and metered using an automatic chemical pump. This product can be drawn through normal vinyl tubing. In most applications pumps are set to draw 2 ounces of this product injected into the pits 10 times per day.

Guidelines for Application

For larger systems increase dosage.

Viscosity / Temperature Relationship: Temperature changes have very little effect on the viscosity of this product.
