Applications / Dilution Ratios

For best results dilute **Vision™** between 1:50 and 1:64. Apply product to glass surfaces with a spray bottle and wipe dry with a soft cloth.

Guidelines for Application

Water Quality: R.O. water is recommended. Soft water is acceptable. Hard water is not recommended.

Solution Temperatures: Cold water mixture is all that is required. However, warm water is acceptable.

Dwell time: **Vision™** is a fast acting cleaner, a few seconds dwell time is adequate.

Economy: Adjust dilution ratio to suit conditions.

Special Instructions

Vision™ is extremely effective in the "heated tub" applications. Simply dilute **Vision™** accordingly and fill the tub. Dip the towel in the solution and lightly ring it out. Then wipe the damp towel over the glass and follow with a dry towel.
