

# HP DETERGENT

## Hi pH HIGH PRESSURE DETERGENT

### DESCRIPTION:

Effective hi pH detergent produces a generous layer of wet "clinging" foam that coats the car for complete coverage and adds customer appeal. Fresh-Clean or Lemon scent is available for increased customer appeal.

### ADVANTAGES:

- Higher alkalinity cuts through road grime and particulate soils fast!
- Produces blankets of cleaning foam!
- Lemon or Fresh-Clean scent enhances wash experience!
- Easy on application equipment!
- Readily Biodegradable!

### DILUTION RATIOS:

Low Pressure Pre-Soak : 1:90-120

High Pressure Pre-Soak: 1:120-240 / High Pressure Soap: 1:240-450+

### PACKAGING:

5-Gallon, 30-55-Gallon Drum
