

# HP FOAMY SEALANT

## FOAMING CLEAR COAT PROTECTANT—BERRY SCENTED

### DESCRIPTION:

Concentrated drying agent with sealant creates an amazing product for use in high pressure applications. Instantly beads and sheets water from old or new vehicle surfaces resulting in a dryer and shinier vehicle. Produces a fast breaking foam with a strong berry scent adds outstanding customer appeal.

### ADVANTAGES:

- Produces a fast breaking foam for visual appeal and awareness that the product is being applied!
- Appealing berry scent!
- Use in high pressure self service or IBA applications.
- Stable concentrate will not gel in cold or hot weather produces consistent results!
- Can be used in reclaim systems!

### DILUTION RATIOS:

Low Pressure: Dilute 1:90-240+ (10-20 mL per car). High Pressure: Dilute 1:300-600 or inject 2 ounces or concentrate into water stream per vehicle!

### PACKAGING:

5-Gallon, 30-55-Gallon Drum

### PRODUCT PROPERTIES:

STATE	Aqueous
COLOR	Berry
ODOR	Blue
VOC'S %/WGT	<10
pH (100%)	NE
Solubility in H2O	Complete
