

PRO-SOAK #1

LOW pH TOUCH FREE PRE-SOAK

DESCRIPTION:

Effective low pH pre-soak is effective on windshield masks, body film and grime leaving vehicle surfaces clean and shiny. Produces a generous layer of wet foam that coats the car for complete coverage and adds customer appeal.

ADVANTAGES:

- Achieve consistent cleaning results requiring no seasonal "adjusting!"
- Removes windshield masks, body film and grime without using dangerous chemicals as: ABF or HF.
- Cost effective, very competitive cost per car!
- Available with scent and dye to create customer appeal and enhance wash appeal!
- Easy on application equipment!

DILUTION RATIOS:

Dilute @ 1:90-180 or inject 1-2 ounces of concentrate into the water stream per vehicle. Heat water to 100-115°F for best results.

PACKAGING:

15-30-55-Gallon Drum

PRODUCT PROPERTIES:

STATE	Aqueous
COLOR	Aqua
ODOR	Detergent
VOC'S %/WGT	None
pH (100%)	<2
Biodegradable	Yes
